

PROFILE - JULIE BUCK - MATER MARKETING

JULIE'S STORY

For over 12 years I suffered with **severe and constant back pain**, caused through pregnancy, which, more than once, left me collapsed on the floor due to the pain.

I tried every medical option, from acupuncture to physiotherapy and chiropractic therapy to osteopathy; I even tried the more alternative methods such as spiritual healing and Reiki – but I still couldn't easily get out of bed each morning, I couldn't walk for long distances; I couldn't carry heavy bags; but the worse thing was that when my daughters were babies I couldn't comfortably get down on the floor to play with them.

Everything I did was a real effort and my back was 'killing me' constantly. I hasten to add I was not overweight but I was generally fit and healthy, but still this debilitating pain plagued my life.

Then, in April 2003, I was introduced to Aloe Vera Gel.

Within three weeks of taking the Aloe Vera Gel drink my back pain had disappeared completely, and it has never returned! I have gone from struggling out of bed every morning and hobbling across the bedroom, unable to do 'basic jobs', to now enjoying every moment of doing 'normal' things easily and without any pain whatsoever. Now, for about £25 per month, my life has changed dramatically. Is that a fair price to pay for good health? I think so.

ALOE VERA

Most people have heard of Aloe Vera, but not everyone knows about its amazing healing properties. There are records of its use going back as far as 1550 BC, in Egypt. Cleopatra is said to have relied on it to help preserve her legendary beauty and Alexander the Great used aloe vera to restore the health of his troops.

With over 75 nutrients, Aloe vera is a natural detoxer, cleanser and anti-inflammatory which boosts energy levels and balances the immune system.

However, only in relatively recent times have we 'rediscovered' the powers of this wonderful plant.

The gel I use comes from the world's largest producer of aloe vera (Turnover of over \$2 billion). They also have the world's largest bee colony and produce a range of **100% natural organically grown** health and nutrition products based on aloe vera and bees. Their aloe vera gel drinks are 100% pure and have received the **Aloe Science Council Seal of Approval** for purity, the **Islamic Seal of Approval**, and are rated **Kosher**.

Oh, and I forgot to tell you the best bit... the products all come with a 60-day money back guarantee so you can try any products you like and if, within 60 days, you don't think they've worked for you, simply return the empty containers and get a full refund – I'm not aware of anyone along the high street offering such a fantastic deal, are you?

SHARING THE BENEFITS

I was so impressed with the product that I am now working a part-time business from home – alongside my other career as a marketing consultant – offering others both potential relief from certain conditions, using aloe vera products, as well as the opportunity to run their own business from home.

So, HOW IS YOUR HEALTH?

- ARE YOU feeling tired, run down, stressed out – no energy?
- DO YOU suffer from Eczema, Psoriasis, Fibromyalgia, Acne Rosacea, Colitis, Diverticulitis, Irritable Bowel Syndrome (IBS)?
- WOULD YOU like to sleep better and rise feeling refreshed?
- DO YOU work out often? And suffer from pulled muscles or joint pain?

- HOW about clearer skin, shiny hair and stronger nails?
- MAYBE you have allergies: Hay Fever, Sinusitis, Asthma, Bronchitis?
- PERHAPS you suffer from Back Pain, Arthritis, Frozen Shoulder, Bursitis, Crohn's Disease or the effects of cancer treatment, for example?
- OR would you prefer to take a natural alternative to HRT or use an aluminium-free deodorant?

Most people, can probably answer yes to at least some of those questions above. Have you considered taking an aloe vera gel drink as part of your daily nutritional regime? I did – and you have already read MY story

I can now supply these products anywhere – although I'm based in the UK.

BUSINESS OPPORTUNITY

Today, more and more people are turning to **natural alternatives**, rather than prescribed drugs, for certain health conditions such as: arthritis, eczema, IBS, allergies (e.g. hay fever and asthma), back pain, skin disorders, digestive disorders, etc. As a result the **natural health and nutrition market** has grown enormously.

So, if you want a better work-life balance, haven't got a pension worth talking about, hate commuting to work, fear redundancy, want freedom to do what you want when you want, want to see more of your children, want to run your own business, want to escape the rat race to enjoy life to its fullest or simply need a secondary income-stream, then forget the corporate life, company politics, long hours, stressful working life, juggling work with family ... and take control of your life NOW. Anybody, whatever race, religion, age or colour can do this if they have the personal desire to change their life and the determination to see it through.

If you like the idea of working part-time, but potentially earning full-time (with potential for six-figure income!) from a home office, at times that suit you without compromising your career/family commitments, and having lots of fun at the same time – I would **LOVE** to hear from you.
